VestaVu.com joins Realtor.com Picture Path Program

Jacksonville, Florida — VestaVu LLC announced today that it has joined the Realtor.com® PicturePath™ virtual tour program, which enables real estate agents to post their VestaVu® virtual tours directly to Realtor.com®, the world's largest online real estate listing database.

According to Realtor.com®, eighty one percent of home buyers say photos and detailed property descriptions are the most important features when searching online for homes, followed closely by featured virtual tours. Realtor.com® is used by over 5.7 million prospective home buyers and sellers a month and the "Featured Tour" home-search option is clicked more than 120,000 times per day by consumers searching for homes. Posting a virtual tour through the Realtor.com® PicturePath's program ensures that realtors can take advantage of the overall high impression rate on Realtor.com® and their related websites.

"The PicturePath™ program provides us with a highly viewable distribution option for our subscribers. Our subscribers now have the ability to take advantage of the increased traffic and visibility that Realtor.com® provides." said Al Tomasetti, Chief Technology Officer of VestaVu LLC.

About VestaVu LLC.

VestaVu LLC is an independent company that provides a web-based application service allowing real estate agents and brokers to create virtual tours, promotional flyers, and manage online distribution.
